## Splashtop personal linux

Hi Guys We desperately need a splashtop business on Linux. I admin most of my clients from Linux using VNC and splashtop blend. If there was a business on Linux I could do not with VNC in general. Regards Mike Simmons It was an honor to be interviewed by Linux.com, a leading Linux site with more than 1 million unique monthly visitors. ... In addition to sharing my vision of future desktop computers like personal clouds and the future of Linux/Android games, I shared our secret Linux desktop broadcasting feature for many, with every stream performing 10X VNC ...
